Character Education in Schools

Character Education has been shown to decrease bullying and school violence, while improving student satisfaction and test scores.

We believe Academics and Character Education are equally important. Schools that implement Character Education become places where students want to be.

Good character drives success in academics, sports, citizenship, friendships and family. It is important to teach youth how to stay committed, to be a person of your word and to be a person of good character.

Becuase I said I would Character Education teaches students the importance of a promise. It helps them develop good habits that will improve our world.

Character Education in Schools

Build a culture of accountability.

Teacher Kit Booklet

3 Lesson Plans for Character Education

Suggested Grades: 5-12. / **Subject:** Any. / **Time:** 1 or more weeks.

Suggested Materials

DVD/Stream   iPad/Laptop   Projector/Screen   Pencils

Lesson Plan 1: League of Champions

Lesson Overview: What can films teach us about the importance of keeping our word? Actively and viewing movies can entertain students and be a valuable tool for character education. By examining characters in a film, it will teach the students about personal values and daily choices that can enrich better their lives. Students will analyze films utilizing the 7 Elements of the *because I said I would* Philosophy to learn about the importance of a promise.

Lesson Plan 2: Promise Planning

Lesson Overview: What can films teach us about the importance of keeping our word? Actively and viewing movies can entertain students and be a valuable tool for character education. By examining characters in a film, it will teach the students about personal values and daily choices that can enrich better their lives. Students will analyze films utilizing the 7 Elements of the *because I said I would* Philosophy to learn about the importance of a promise.
